

# Your Complete Solution

- **Zero Down**
- **36 - 48 Month Terms**
- **90 Day Deferral**
- **Payments as low as \$110 / month**

## The Sizer Cycle

After years of development and refining, the Sizer Cycle is now available. Designed by Bernie Mikkelsen, this sizing cycle is made for ease of use and ease of understanding by the person being fitted. The technician can quickly and easily adjust all the important dimensions with quick releases and a hand crank top tube extender.

- Quick and accurate custom fittings
- Communicate measurements quickly and accurately to the custom framebuilder
- Easy to use by almost anyone in the shop
- Simulate changes in stem and crank length, saddles, handlebars, etc. on stock production bikes
- Add a power measuring device and conduct power optimization studies

### **SIZER CYCLE PRICING \$2,960.00 (COMPLETE)**

Just submit a simple one-page application\*  
Approval usually within 24 hours  
Your new equipment is delivered
